Summary

- I'm **Chouthya Jayant Kumar**, a passionate and motivated **Frontend Developer** skilled in **ReactJS**, **JavaScript**, **HTML**, **CSS**, and **TailwindCSS**.
- I specialize in building responsive, dynamic, and visually appealing web applications. My projects include a full-scale **Zepto Groceries Clone**, a feature-rich **HRMS portal**, and a fully functional **Contacts App** with CRUD operations.
- Proficient in React fundamentals including **JSX**, **props**, **state**, and React Hooks like **useState** and **useEffect**.
- Comfortable working with RESTful APIs, real-time UI updates, local storage, and mobile-first design principles.
- Currently seeking a challenging frontend developer or React intern role to apply my skills, contribute to meaningful projects, and grow with an energetic development team.

InternPe Pvt Ltd

Web Developer Intern

July 2023 – Sept 2023

Jaipur, Rajasthan

- Developed an e-commerce sales analytics webpage for Bangalore stores.
- Designed and analyzed data using HTML, CSS, JavaScript, and SQL.

Projects

- **KRIS - HRMS** | *HTML, CSS, ReactJS, TailwindCSS, JavaScript* **Feb 2025**
 - Developed and enhanced the KRIS HRMS frontend for improved user experience and functionality.
 - In this project, I developed Employee and HR Built interactive, responsive, and mobile-friendly UI using React.js and modern CSS frameworks (Tailwind CSS).
 - Integrated RESTful APIs for seamless communication between frontend and backend services.
 - Improved HR portal engagement and system efficiency, enhancing employee experience.
- **Zepto Groceries Clone** | *HTML, CSS, ReactJS, TailwindCSS, JavaScript* **March 2025**
 - A Zepto Clone Web App is an online grocery delivery platform that allows users to browse products, place orders. It includes a User Panel for customers to shop and track orders and an Admin Panel for managing inventory, orders, deliveries, and payments efficiently.
 - In user panel- user used to browse groceries and featured deals, Add products, apply promo codes, and proceed with payment, View past purchases and reorder easily.

- In admin panel- admin used to Overview of orders, users, and earnings, Add, edit, and organize groceries, Monitor stock levels and receive restock alerts.

•

Zepto mini web app | *HTML, CSS, Javascript, tailwindCss*

march 2025

- A Zepto mini App built-in JavaScript focuses on creating a seamless grocery shopping experience with essential features like Login Pages, Search Functionality, and Add to Cart.
- In this web app, I mainly focused on login functionalities, search functionality, and add-to-cart functionality with local storage concepts.

–

Contacts App | *HTML, CSS, JavaScript*

Nov 2024

- * A web-based application to manage personal or professional contact details efficiently, with CRUD (Create, Read, Update, Delete) operations.
- * Fully responsive interface built with HTML, CSS, and JavaScript for seamless usability across devices.
- * This Web app will adds the contacts dynamically which is stored in the backend in a JSON file.
- * Real-time search with filters (e.g., name, email, or phone number).

Achievements

- Achieved 5 Star in Hacker rank Practice.
- Applied Photoshop skills to tasks including image editing, graphic design, poster creation, and certificate design.
- Participated in conducting the Debugging contest
- Participated and Initialized the fitness events and organized various events.
